

## Towaway Equipment Requirement List

Trucks must be within 10 years old or newer, 3/4-ton or 1-ton only. Trucks older than 10 years must be approved by management prior to leasing on. The truck must be in good physical appearance and be able to pass a Federal DOT inspection.

### Required equipment:

- Fifth wheel must be rated for at least 15K.
- Class IV/4 or better hitch/receiver, vertically adjustable, complete with 1000 lb stabilizer bars and saddles. Required ball sizes are 2" and 2 5/16".
- Mud flaps must completely cover each rear tire and have no more than 3-4" of ground clearance while under load.
- Tailgates should be removed or replaced with a V-gate. Should you decided to keep your tailgate on, we will have you sign a waiver for any damage your tailgate may cause to the manufacturer's unit that is in your custody.
- Optional fuel tanks and/or tool boxes should not extend above the bed rails. A waiver is available for those that are not in compliance.
- Window tint or glazing must allow at least 70% of light through
- Mirrors must be capable of pulling 102" wide trailers

### Additional required safety equipment:

- Trailer brake control installed
- 6' safety chain
- 12-volt breakaway battery
- Mounted fire extinguisher
- Flares or triangles (3)
- Tire gauge, tire jack, lug wrench, spare fuses
- Basic small hand tools
